Hi Kathleen:

Gina has sent me a reminder on this. I was somehow under the impression we had submitted a "Responsibility and Progress" (RAP) sheet for our favorite pollutant but looking at it now I see we just said "awaiting SAB" for most things. We have a better sense of where we are and what needs to be done and when, so could you fill this out, please. Thanks, and sorry for the late notice. I dropped the ball on this one. It needs to go to her today.
